

LAUNDRY DETERGENT

LIQUID LAUNDRY DETERGENT

- **Concentrated for economy**
- **Non-biological - Enzyme free**
- **Suitable for use in front-loading or top-loading machines**

USES

A liquid Laundry Detergent for use in automatic washing machines to achieve brilliant cleaning for all your clothing and linen.

A highly concentrated liquid formula for hard and soft water areas, which incorporates a spring fragrance for lasting freshness.

Use through automatic dosing machines, or hand wash to remove stubborn stains and enhance the appearance of fabric, clothes and housekeeping items.

DIRECTIONS

NORMAL SOILING:

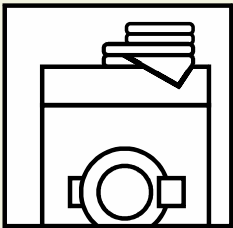

Use 15ml of Laundry Detergent for each kilogram of fabric (dry weight). For example a washing machine taking 5 kilograms of fabric uses 75ml of detergent.

HARD WATER AREAS:

For hard water areas increase the dosage to 19ml per kilogram of fabric weight.

Use from cold to 95°C. The stain removal properties of LAUNDRY DETERGENT get much better with higher wash temperatures.

N.B. Always check the articles' care label and follow washing instructions.
