

# K176 : FULL POWER

graffiti remover for porous surfaces

## Description of product

**Full Power graffiti remover for porous surfaces which removes spray paint on the first pass, removing the need for harsh anti-ghosting products.**

Full Power breaks the graffiti up without dissolving it. This prevents the graffiti from soaking into the wall. The broken up flakes of paint are then easily removed with a pressure washer without leaving any ghosting. State of the art formulation removes leather dyes, inks, stains and waxes, the new graffiti markers of choice. Full Power is not suitable for use on solvent sensitive surfaces such as plastics & polycarbonates. Though Selden cannot comment on the environment impact of the graffiti, this Full Power Graffiti Remover has an exceptionally good environmental profile. Does not contain either acids or caustics.

## Product Uses

Compatibility: Bare metal Brick, concrete, breezeblock & stone Bare wood (untreated) Polyethylene Polypropylene Any other plastic (will damage) Polycarbonate (will damage) Treated wood e.g. outdoor fencing (may attack treatment) Paint (any type) (will remove) Varnish (any type) (will remove) Fabrics e.g. cloth, carpet (will damage)

## Directions

Spray product evenly across graffiti. The product will adhere to the graffiti, and break up the film so it will wash off the surface. There is no traditional solvent action, the gel will not dry out. Contact time of up to 1 hour can be expected though less aged graffiti will remove much quicker. Scrub briefly with a stiff brush prior to removing with a pressure washer. On non-porous surfaces, such as metal, the graffiti can be scraped or wiped off with a paper towel. After rinsing apply Power Off sacrificial coating for long term anti-graffiti protection.

**iNsignt Supported**

iNsignt is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/iNsignt>

**iNsignt recommended product uses**

Special - graffiti removal from porous surfaces (eg. brickwork)

typical dilution n/a

**Product Hazards and PPE Requirements**

**Danger**

Contains : Deceth-4

**Risk Phrases**  
Extremely flammable aerosol. Causes serious eye damage. Pressurised container. May burst if heated

**Safety Phrases**  
Keep out of reach of children. Keep away from heat, sparks, open flames, hot surfaces. — No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Wear eye protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical attention. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122°F.

**Technical Data**

Composition A blend of oxygenated solvents, surfactants and rheology modifiers

Appearance Hazy gel

Colour Colourless

Density 0.9

Fragrance Low solvent

Stability Two years minimum

Storage Pressurised container. Store out of direct sunlight. Temperature must not exceed 50oC

**Aerosol Information**

Propellant Hydrocarbon

Pressure 40 psi

Spray Rate 4

**Environmental Profile**

**Biodegradability**  
All surfactants contained in Selden Products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO2 and water.

**Selden Environmental Charter**
