Quality Tools for Smart Cleaning

THE MOST EFFICIENT WAY OF INDOOR CLEANING

Efficiency and safety are of utmost importance for the professional cleaning of windows and other smooth surfaces **indoors**. Window cleaning with conventional tools is very time consuming. High windows are especially difficult to clean, usually only with the risky use of ladders.*

With the revolutionary **Stingray**, **UNGER** offers the most efficient indoor cleaning system of all times, now with a 150 ml refill tank. This means:

- ▶ 25 % faster glass cleaning**
- ▶ 39 % less chemicals**
- ▶ Ready to use and easy to operate
- ▶ Ergonomic and safe: no inhalation of spray mist, won't cause fatigue
- ▶ Can be flexibly used with all alcohol-based glass and surface cleaners

* Source: Market research conducted with professional glass cleaners in Germany and the UK, 2015, SR Strategy Routes.

** Compared with conventional cleaning methods with spray and cloths [Source: Zeit- und Verbrauchsstudie Glasinnenreinigung, 16.07.15, Sabine R. Mück, Hygiene Consult Mück]

Given the large square footage of glass surfaces that we need to clean at Frankfurt Airport, the Stingray is a major economic advantage.

Klaus Ewig, GCS Gesellschaft für Cleaning Service mbH & Co. Airport Frankfurt Main KG

A QUICK LOOK AT ALL THE ADVANTAGES OF THIS SYSTEM

FASTER

- Spray and clean in a single operation
- No rework necessary: embedded spray system prevents liquids from getting to unwanted areas
- No need to move furniture, etc.

EASY TO USE

- Actuation buttons on both the handset and any Easy Click pole
- **NEW:** Can be quickly and flexibly filled with all alcohol-based glass and surface cleaners
- Always ready-to-go
- Hardly any training effort due to intuitive handling

ERGONOMIC AND SAFE

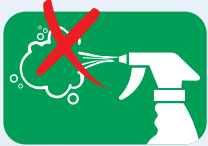

- Embedded, protective spray mechanism reliably prevents the inhalation of spray mist
- Triangular pole shape: safe and fatigue-free cleaning up to 5 m working height
- Optimized weight distribution for easy and comfortable working
- Battery-powered spray pump: no manual spraying necessary

PROFESSIONAL RESULTS

- Suitable for: Interior glass and mirror surfaces, glass doors, tables and furniture with smooth plastic surfaces, metal and many other smooth surfaces
- Easy removal of fingerprints, grease, and other dirt
- QuikPad prevents cross contamination

THE PERFECT SOLUTION FOR OPTIMAL CLEANING RESULTS

EMBEDDED PRECISION SPRAYING SYSTEM

- Enclosed spray mechanism through protective cutout in the pad
- Perfect dosage of the cleaning liquid with each spray
- Precise application of cleaning fluid directly to the surface to be cleaned
- No misting, no drips

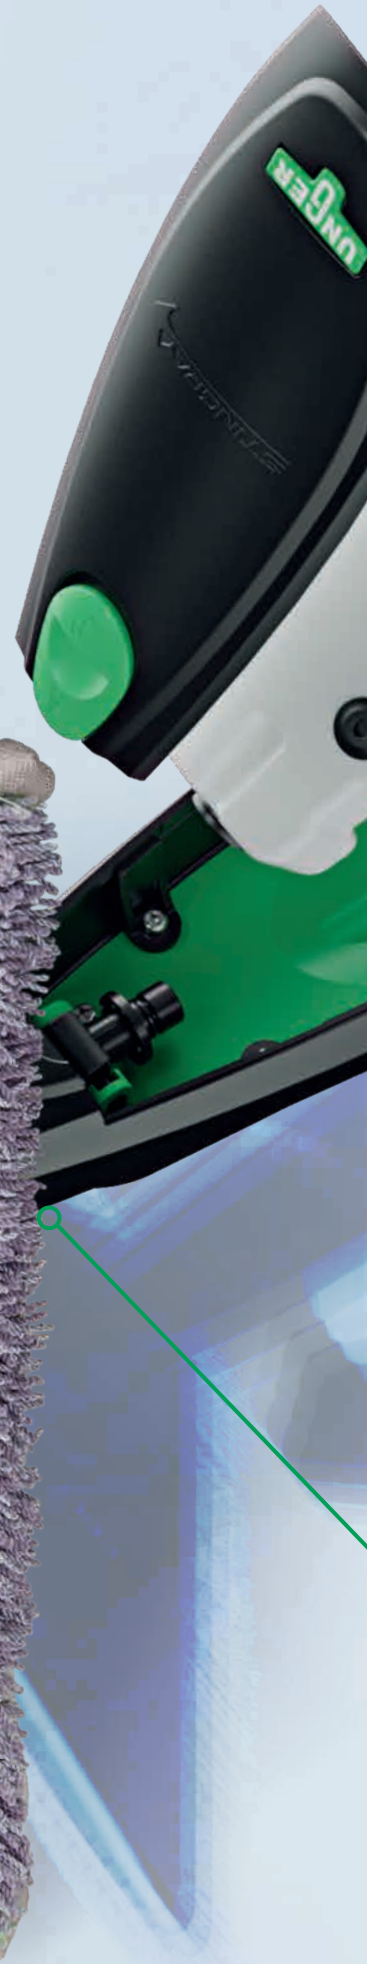

DEEP CLEANING TRI PAD

- For heavy soiling or thorough cleaning
- Premium microfibre fabric for excellent cleaning results
- Wash cycles: 300

QUIK PADS

- Hygienically clean without having to launder
- Easy to change and attach to adapter

EASY-CLICK-POLES

- Modular pole system for easy extension of the working height up to 5 m.
- Two pole lengths available (0.63 or 1.24 m)
- Attach extensions and snap into place

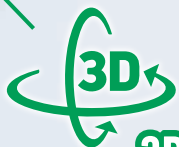

ACTUATION BUTTON

- Always optimally accessible - whether on the handset or on the Easy-Click pole
- Precise dosing of cleaning fluid at the touch of a button

NEW!

REMOVABLE TANK

- Can be filled with alcohol-based glass and surface cleaners
- Large opening for easy filling: ready to use in seconds
- Drip-proof due to integrated leakage protection
- Double intake manifold for perfect function at every angle
- 150 ml tank can cover up to 150 m²

3D-JOINT

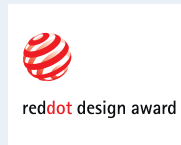

- Robust and fully flexible for easy access to hard to reach areas

STINGRAY GLASS CLEANER

- Excellent cleaning power for glass, mirrors, and other waterproof surfaces
- Easy removal of fingerprints, grease, and other dirt
- Fast and streak-free drying
